Parents - do you know what your child is searching for on the Internet? You may be surprised to see what your tike / small child is searching for on the Internet. iMom is a website for mothers that covers a variety of topics. iMom posted the top 100 seaches by children. As you may or may not have expected, sex and porn were in the Top 5 along with You Tube. Children are curious and will explore the computer and Internet. As parents, teachers, and caregivers, we must supervise and monitor a child's use of the computer. There are child predators lurking out there in cyberspace just looking for their next victim. You can see the full list at [Top 100 Searches by Children](#) at the [www.imom.com](http://www.imom.com) site.
