

## **KB Home Creates Solar Neighborhoods**

Posted In [Climate Change, Green Tech, News](#)

4-1-2011

Homebuilder KB Home announced a new initiative to provide solar power systems for new homes as a standard feature in 10 Southern California developments. According to a press release, while KB Home has provided solar power systems as an option for its homebuyers in select communities in California and Colorado for a number of years, this is the first time it will build entire neighborhoods featuring solar power systems for every home.
